

KLOVE is THE ONLY Christian Radio station in our county. It provides information on local events for Christians in our area. It allows our church to provide helpful information about events and services to our community. If KLOVE is displaced by an LPFM I believe we would loose our only station that gives us this information. The public needs to know about the divorce care, children's camps and bible study groups available. We also find that KLOVE serves our needs with positive, uplifting music that does not have to be screened for our children's ears. Our church has seen a tremendous amount of "new comers" to our events since we began having KLOVE broadcast our events (FREE BY THE WAY). In my area KLOVE is heard on 88.3, 102.7 and 99.3, please do not allow this to be taken away.
